DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Quigley-Jones House c. 1860 is a two story three bay by one room weatherboard frame house with shorter two story two bay by one room kitchen ell to the north. The house faces McCauley Road and south with the main gable running east/west.

The house is situated on a slope so the rear fieldstone foundation is exposed much more than the front foundation. The original weatherboards have been covered with aluminum siding. The medium sloped composition tile roof has a plain boxed cornice and plain bargeboards.

The south elevation is symmetrically arranged around a central entrance with a partially glazed front door and four light transom. 6/6 sash windows flank the door opening and three identical 6/6 sash light the second floor. A hipped roofed front porch covers the first floor and is supported by square posts with molded plinths.

The west gable end has four pane attic light and basement windows which flank a interior end brick stove stack with corbelled cap.

The east end has a single 6/6 sash on each floor and a attic opening which is used as a ventilator. All these openings are found on the right side of the interior end brick stove stack. The kitchen wing is flush with the end wall. A side entrance allows access to the kitchen and a adjacent 6/6 sash window light the first floor. 6/3 sash windows light the second floor. An interior end stack rises out of the gable end. Details on the west side of the kitchen are basically the same.

The interior has been partially remodeled with the removal of the enclosed central stair. Ogee molded baseboards still remain. Beaded board doors are found in the kitchen wing and specifically to the winder stair in the northwest corner.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

The Quigley-Jones House was obviously built between 1858 and 1879 since it does not appear on the Martenet Map. Innumerable houses of this type were built throughout the county and they all date to this general period. (1850-1870) although exceptions are always found. E. Quigley appears on the 1877 Atlas at this spot.
